Toronto's Updated Procedure for Disinfecting Watermains

The City of Toronto has updated their Procedure for Disinfecting Watermains based on the Ministry of the Environment and Climate Change's ("MOECC") mandate. The updated Procedure is available on their website, at the following link:
<https://goo.gl/sL9zJR>

The document outlines the updated procedures for disinfecting watermains as part of an addition, modification, replacement, extension, planned maintenance, or emergency repair in a municipal residential drinking water system. This procedure applies to new mains, cleaned mains, cleaned and relined mains, repaired mains, temporary mains and mains that have been out of service for a significant period of time. The procedures outlined in the report are required to be followed to satisfy the MOECC regulations for clean drinking water.
