

Ontario Launches Vaccine Clinics on Wheels

On August 8th the Provincial Government announced the GO-VAXX bus. The initiative is a partnership between the province and Metrolinx to offer a new, convenient option for people to receive their COVID-19 vaccine at work.

The modified GO BUS will travel across GTHA to deliver and administer vaccine for priority workplaces, including construction, and the businesses that support construction. The bus can be at a location anywhere from a half-day to two days.

Priority will be given to the participating Employer but is also open to the public.

For more information read the news release [here](#).

If you are interested in participating in this initiative or have any questions about the GO-VAXX Bus, please contact Steven Crombie (416-618-9839 or steven.crombie@oswca.org)
