City of Toronto – Vaccination Requirements on Select Contracts

The City of Toronto has announced that it will be putting in place a mandatory vaccination requirement on select contracts only, beginning October 31, 2021. This new requirement will be placed on contracts where the responsible City department believes there will be sustained and regular in-person contact with City officials.

GTSWCA members will start to see language appear in City tender documents moving forward.

The City of Toronto vaccination policy for contractors can be found on the COVID-19: Mandatory Vaccination Policy for Contractors webpage or by [Clicking Here](#).
