

April 23, 2024

Please be advised that due to content changes, the LiUNA Local 183 Training Centre will no longer be offering the Working at Heights refresher program.

If and when a members' working at heights certification does expire, they will be required to take the full program, which is up to 8 hours in length.

Each trainee is required to bring their hardhat, safety boots and government issued ID to class, or they will not be permitted to take training.

Should you have any questions or require any additional clarification, please contact me.

Regards,
